

M. Eugene Turpin, inventor of lyddite, monolite and turpentine, has just been made a Chevalier of the Legion of Honor by France. He is shown at work in his laboratory. Photo from International Film.

### The Recognition Test

IF you are a concert-goer we propose this means of establishing to your own satisfaction the genuineness of the Ampico's achievement as a Reproducing Piano.

Come to the Knabe Warerooms and ask to hear a great favorite artist play a selection by your favorite composer. Suppose, for instance, that you desire to hear a Liszt Etude played by Godowsky. While the Ampico is playing, ask yourself not merely whether you are hearing an artistic performance of the work. Ask yourself whether you are not actually hearing the artist. You will immediately recognize the touch, phrasing, rhythm, the color, and all the subtle characteristics of the artist's playing.

The invention of the Ampico profoundly influences the whole future of music and musical appreciation. To purchase or even consider a "player" instrument before hearing the Ampico Reproducing Piano is to ignore the greatest advance ever made in the development of the pianoforte.

**The Ampico in the Knabe**  
Uprights \$1250 & \$1350—Grands \$2050

Daily Demonstrations in the Ampico Studio
